CRITCHLEY HEAT SHRINK/CABLE MARKERS

Jo-Kell is a distributor for **Critchley** heat shrink/cable markers. **Critchley** heat shrink/cable markers are used in the identification of wires and cables by computer-based printing onto sleeves. These sleeves are thin wall, flame retardant radiation cross-linked polyolefin heat shrinkable tubing. **Critchley** heat shrink and cable markers are suited to a wide variety of applications, including those with military standard requirements. The products meet the material and performance requirements of SAE AMS-DTL-23053/5 class 1.
