

New Santoprene™ Handle Replaces 31-911 Neoprene Handle

product description

The 31-911 handle is no longer offered.

New improved handle is IP 66/67 rated.

Effective immediately Meltric's 31-911 neoprene handle is no longer available. Instead a new and improved santoprene handle has been developed that offers an IP 66/67 environmental rating – the old neoprene handle did not have an environmental rating.

Additional notes:

- The new Santoprene handle also offers a provision for an internal screw/washer for grounding
- UL testing has not yet been completed, but we expect UL and CSA listing by the end of 2007

Products affected:

- DS100 • DR150 • DN20 • DN7(90A)

Neoprene handles will continue to be available for other products.

part numbers and pricing

To order the new handle you must identify the appropriate cable size then select the appropriate part number.

Part Number	Cable Range
65-9A013-D25	.70 – 1.00 in
65-9A013-D35	1.00 – 1.375 in
65-9A013-D45	1.375 – 1.750 in

Note: The difference between each part number is in the clamp assembly and bushing sizes.
