

Announcing the Opening of SPD's Depot Repair Center

Mil-Spec circuit breaker repairs, overhauls and conversions

Performed by the OEM

SPD Electrical Systems and its' predecessor companies ITE, ITE Imperial and Gould have been supplying Mil-Spec air circuit breakers for more than 80 years. That experience and knowledge is utilized in the newly established SPD Electrical Systems Depot Repair Center, a facility established for the express purpose of providing overhaul, repair and conversion services by the original equipment manufacturer. Who better to repair your Mil-Spec circuit breaker than the company who originally manufactured the circuit breaker.

ISO-9001:2000 Registered

The quality is built in. All of the process utilized by the Depot Repair Center meet the factory wide requirements of ISO-9001:2000. You can be certain the work performed on your circuit breaker will be of the highest quality.

Factory trained workforce

The specifications and work standards utilized in the Depot Repair Center are the same standards utilized in the circuit breaker factory. All of the Depot Repair Center employees have either worked in or been trained by the factory.

Full engineering support

The complete depth of SPD's engineering is available to the Depot Repair Center. No matter how difficult or challenging a problem is presented, SPD's engineering talents are available assist every step of the way.

All replacement parts are new OEM parts

Concerned about surplus or counterfeit parts being used in the repair or overhaul of a circuit breaker? The Depot Repair Center only uses new parts obtained from SPD's circuit breaker factory. You can be certain only new OEM parts are utilized.

Dedicated facility

A dedicated area has been established for the Depot Repair Center, ensuring capacity exist to meet your most urgent requirements.

Dedicated workforce

The Depot Repair Center workforce is dedicated to the repair and overhaul business, providing expert repair and unparalleled workmanship.

Competitively priced

The SPD Depot Repair Center is competitively priced with the overhaul and repair industry. Our pricing, along with our quality system and superior workmanship offer the best value for circuit breaker repair and overhaul.
